

TRIPOD TURNSTILES SC-112

Body	: Indoor, 1.2 mm 430 quality stainless steel.
Hub	: Aluminum casting, precision CNC machining.
Mechanism	: Aluminum casting, precision CNC machining, stainless steel impeller.
Arms	: 35x3 mm Aluminum polished handle (Opt. Stainless Steel)
Dimensions	: 290x435x950 mm, Arm:450 mm, ~26 kg
Indicator	: Standard on both feet. (Top cover optional)
Power	: 176-264 V AC 50-60 Hz / 24V DC Max:10W
Temperature	: -20 / +60 °C - (-40° with Opt. Heater)
Operation	: Two-way locked, one-way locked, one-way free, both directions free, adjustable trigger time.
Features	: Single contact, two-way switching, memory mode, service port, internal operation and transition
Outputs	: counters. Dry contact pass information for both directions separately, pc control port.
Emergency	: Free mode with emergency input, free mode with power failure.
Safety Status	: With the safety status input, the turnstile goes into locked mode and never opens.
Capacity	: 30 people per minute
Option	: Automatic falling arm, RF control card, counter, button, unauthorization passage sensor.
